BLACK SLAVE BOY DRAWINGS

Welcome to my art gallery! The anonymity of the web has enabled a lot of artists to express what's truly in their heart. For me, that appears to be a fetish for black boys, racism and slavery.

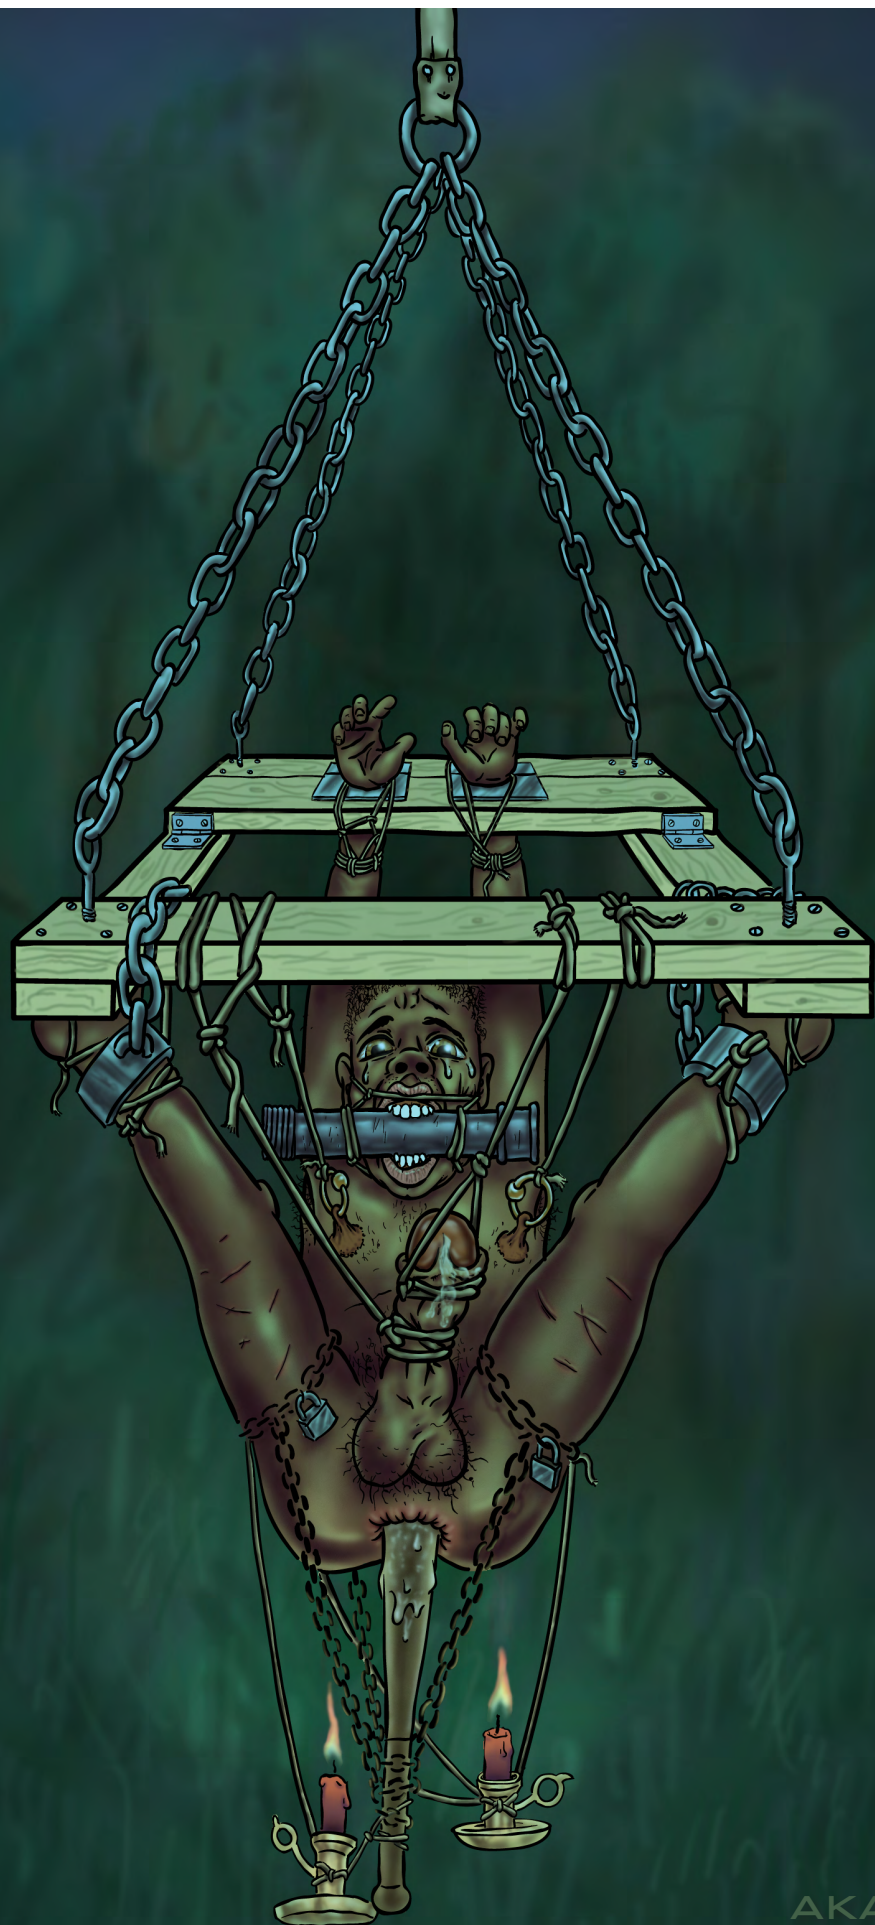

When viewing my work and considering the many hours it has required, I may seem a bit fixated. But actually, I have lots of other fetishes, and non-erotic hobbies as well. It just that once I had started going down this road, I felt I had to keep going.

I sometimes feel that this theme is a bit too close to reality - racism is far too alive, and the historical facts about slavery in the US are quite horrible. Sometimes I just get tired of hatred and violence. But then I get horny, and suddenly it all makes so much sense ...
